

# Transportation Services – ECR

Canadian Mainline Transportation Services:  
Enhanced Capacity Release (ECR)

Access Markets off Great Lakes Gas Transmission and TransCanada with a Single Longhaul FT Contract

## Key Features and Benefits:

- If you are a Firm Transportation (FT) shipper between Western Canada and the Eastern Toll Zone or adjacent export points, TransCanada will release its capacity on Great Lakes Gas Transmission. At the same time, TransCanada will still provide you with FT service between Empress and Emerson as well as downstream of St. Clair or Dawn.
- Maximize the value of your FT contract.

## How to Obtain This Service

- Sign an ECR Contract with TransCanada
- Submit a completed Exhibit "A" for the requested service at least one business day in advance of the requested service start.
