

Transportation Services (Hub) – PALS

Canadian Mainline Transportation Services:
Parking and Loan Service (PALS)

Store or Borrow Natural Gas for any Term Anywhere
on the Canadian Mainline System (subject to
availability)

Key Features and Benefits:

- Ideal for mitigating unused demand charges, balancing with your natural gas supplier or distributor, or taking advantage of market price fluctuations.
- Injections and withdrawals are subject to TransCanada's ability to handle them under existing line pack conditions.

How to Obtain This Service

- Sign a PALS Contract with TransCanada.
- When you are interested in a service, discuss your requirements price with the Volume Planners. (The toll for the service can vary between minimum and maximums set in TransCanada's Tariff.) If an agreement is reached, you submit a completed Exhibit "A" from the PALS Contract, indicating the service and toll. The toll is paid only when the service is provided.
