

## Lee G. Hobbs

### Vice-President and General Manager, U.S. Pipelines Central

Lee Hobbs is Vice-President and General Manager, U.S. Pipelines Central. Based in Houston, Texas, Mr. Hobbs has overall responsibility for the Great Lakes and ANR pipeline systems. He also holds the titles of President, ANR Pipeline Company, President ANR Storage Company and President, Great Lakes Gas Transmission Company.

Prior to his appointment, Mr. Hobbs was President, Great Lakes Gas Transmission based in Troy, Michigan. Before moving to Great Lakes, Mr. Hobbs was Vice-President and Controller at TransCanada, responsible for all external financial reporting for TransCanada Corporation and other subsidiaries of TransCanada. He was also responsible for internal and management financial reporting and reviewed the financial statements and MD&A for TC PipeLines, LP.

Hired in May 1999 as Director, Accounting for TransCanada's Midstream business, Mr. Hobbs held various director-level accounting roles at TransCanada until his promotion to Vice-President and Controller in August 2001.

Prior to joining TransCanada, Mr. Hobbs was Chief Financial Officer for Snow Leopard Resources. He was employed by KPMG from 1983 to 1995 and worked two-year secondments in KPMG's London, England and Moscow, Russia offices.

Mr. Hobbs is an audit committee member for several affiliated pipeline companies, including Iroquois, Portland, Northern Border and Great Lakes. He is a member of the Chartered Accountants of Alberta and Financial Executives International Committee on Corporate Reporting.

Mr. Hobbs is a Chartered Accountant with the Institute of Chartered Accountants of Alberta and received a bronze medal for the Uniform Final Exam from the Institute. He holds a Bachelor of Commerce, with distinction, from the University of Calgary.

With more than 50 years experience, TransCanada is a leader in the responsible development and reliable operation of North American energy infrastructure including natural gas pipelines, power generation, gas storage facilities, and projects related to oil pipelines and LNG facilities. TransCanada's network of wholly owned pipelines extends more than 59,000 kilometres (36,500 miles), tapping into virtually all major gas supply basins in North America. TransCanada is one of the continent's largest providers of gas storage and related services with approximately 360 billion cubic feet of storage capacity. A growing independent power producer, TransCanada owns, or has interests in, approximately 7,700 megawatts of power generation in Canada and the United States. TransCanada's common shares trade on the Toronto and New York stock exchanges under the symbol TRP.
