

Harold (Hal) Kvisle

President & Chief Executive Officer
TransCanada Corporation

Mr. Kvisle has been President and Chief Executive Officer of TransCanada Corporation and its predecessor, TCPL, since May 2001. Mr. Kvisle joined TCPL in 1999 as Executive Vice-President, Trading and Business Development with responsibility for power and pipeline ventures in North America. He was also responsible for TransCanada's marketing and trading activities in power and natural gas.

Mr. Kvisle came to TransCanada from Fletcher Challenge Energy (FCE), where he held the positions of Chief Operating Officer, FCE Americas, and President, FCE Canada. In these roles, he was responsible for the initiation and growth of FCE's successful Canadian upstream business and its early-stage ventures in Venezuela, Argentina and Mexico.

Prior to founding FCE Canada, Mr. Kvisle worked at Dome Petroleum as a petroleum engineer, engineering manager and finance manager. From 1986 to 1988 he played a lead role in the sale of Dome Petroleum to Amoco Corporation.

Mr. Kvisle is on the Board of Directors for TransCanada Corporation, Bank of Montreal, ARC Energy Trust and the Nature Conservancy of Canada. Mr. Kvisle previously served as Chairman of the Board of Governors of Mount Royal College and as Chairman of the Board of the Interstate Natural Gas Association of America (INGAA). Mr. Kvisle was the recipient of Canada's Outstanding CEO of the Year Award for 2008 and the Canadian Business Leader Award for 2009. In 2009, he received an Honorary Bachelor of Arts from Mount Royal University.

Mr. Kvisle is a member of the Association of Professional Engineers, Geologists and Geophysicists of Alberta (APEGGA), the Society of Petroleum Engineers, the MBA Associates, University of Calgary and the Canadian Council of Chief Executives.

With more than 50 years' experience, TransCanada is a leader in the responsible development and reliable operation of North American energy infrastructure including natural gas pipelines, power generation, gas storage facilities, and projects related to oil pipelines. TransCanada's network of wholly owned pipelines extends more than 59,000 kilometres (36,500 miles), tapping into virtually all major gas supply basins in North America. TransCanada is one of the continent's largest providers of gas storage and related services with approximately 370 billion cubic feet of storage capacity. A growing independent power producer, TransCanada owns, or has interests in, over 11,800 megawatts of power generation in Canada and the United States. TransCanada's common shares trade on the Toronto and New York stock exchanges under the symbol TRP. For more information visit: www.transcanada.com
