

Karl Johannson

Chairman, TC PipeLines GP, Inc.
Executive Vice-President and President,
Canada and Mexico Natural Gas Pipelines and Energy

Karl Johannson assumed the position of Executive Vice-President & President, Canadian and Mexico Gas Pipelines and Energy on May 1, 2017. Prior to this, he was Executive Vice-President & President, Natural Gas Pipelines, responsible for overseeing TransCanada Corporation's natural gas pipeline network through Canada, the United States and Mexico.

Prior to serving as President, Natural Gas Pipelines, Mr. Johannson was Senior Vice-President, Canada and US Northeast Pipeline, where he had overall responsibility for natural gas pipelines in Canada and the northeast United States.

Mr. Johannson was also previously Senior Vice-President, Power Commercial and Senior Vice-President Canadian Power. In both roles, Mr. Johannson was responsible for building TransCanada's electricity business into one of the largest non-government owned power businesses in Canada. Through 2010, Mr. Johannson was also Chairman of Cancarb Limited, a specialty chemical company, producing primarily thermal carbon black, located in Medicine Hat Alberta.

Prior to joining TransCanada in 1994, Mr. Johannson held several marketing and management positions at Northridge Petroleum Marketing Inc.

Mr. Johannson is currently Chairman of the Board of Directors of TC PipeLines GP, Inc. (general partner of TC PipeLines, LP), and a director of Bruce Power LLP, The Canadian Energy Pipeline Association (CEPA), Canadian Gas Association (CGA) and the Canadian Electric Association (CEA).

Mr. Johannson holds a Bachelor Arts degree in Economics and a Master of Business Administration in Finance from the University of Calgary. Mr. Johannson is also a graduate from Harvard Business School's General Management Program (2002).

With more than 65 years' experience, TransCanada is a leader in the [responsible development](#) and reliable operation of North American energy infrastructure including natural gas and liquids pipelines, power generation and gas storage facilities. TransCanada operates one of the largest natural gas transmission networks that extends more than 91,900 kilometres (57,100 miles), tapping into virtually all major gas supply basins in North America. TransCanada is a leading provider of gas storage and related services with 653 billion cubic feet of storage capacity. A large independent power producer, TransCanada currently owns or has interests in approximately 6,100 megawatts of power generation in Canada and the United States. TransCanada is also the developer and operator of one of North America's leading liquids pipeline systems that extends approximately 4,900 kilometres (3,000 miles), connecting growing continental oil supplies to key markets and refineries. TransCanada's common shares trade on the Toronto and New York stock exchanges under the symbol TRP. Visit TransCanada.com to learn more, or [connect with us on social media](#) and [3BL Media](#).
