

Paul Miller

Executive Vice-President and President, Liquids Pipelines

As Executive Vice-President and President, Liquids Pipelines, Paul Miller is responsible for TransCanada Corporation's Liquids transportation business.

Prior to his current appointment, Mr. Miller was Senior Vice-President, Oil Pipelines, accountable for the profitability and commercial management of TransCanada's oil pipelines.

Since joining the Company in 1990, Mr. Miller has held a variety of progressively senior roles in treasury, finance, corporate development and business development.

Mr. Miller holds a Bachelor of Business Administration from the University of Regina and a Master of Business Administration from the University of Calgary, and is a Certified Management Accountant.

With more than 65 years' experience, TransCanada is a leader in the [responsible development](#) and reliable operation of North American energy infrastructure including natural gas and liquids pipelines, power generation and gas storage facilities. TransCanada operates one of the largest natural gas transmission networks that extends more than 91,900 kilometres (57,100 miles), tapping into virtually all major gas supply basins in North America. TransCanada is a leading provider of gas storage and related services with 653 billion cubic feet of storage capacity. A large independent power producer, TransCanada currently owns or has interests in approximately 6,100 megawatts of power generation in Canada and the United States. TransCanada is also the developer and operator of one of North America's leading liquids pipeline systems that extends approximately 4,900 kilometres (3,000 miles), connecting growing continental oil supplies to key markets and refineries. TransCanada's common shares trade on the Toronto and New York stock exchanges under the symbol TRP.
