

Stanley (Stan) Graham Chapman, III

Executive Vice-President and
President US Natural Gas Pipelines

As Executive Vice-President and President of US Natural Gas Pipelines, Mr. Chapman is responsible for all pipeline operations and commercial activities across TransCanada's FERC-regulated transmission and storage assets as well as its unregulated midstream business.

He was named to his current position in April 2017, and prior to that he served as TransCanada's Senior Vice President and General Manager of its FERC-regulated US natural gas pipeline business.

Prior to joining TransCanada in July 2016 as part of the Columbia Pipeline Group acquisition, Mr. Chapman served as Columbia's Executive Vice-President and Chief Commercial Officer. Before joining Columbia Pipeline Group in December 2011, Mr. Chapman held various positions of increasing responsibility with El Paso Corp and Tenneco Energy and was responsible for various marketing and commercial operations, as well as supply, regulatory, business development and optimization activities.

Mr. Chapman is a member of the Board of Directors for the Interstate Natural Gas Association of America, a current member and past executive committee member of the Society of Gas Lighters, and a member of the International Association for Energy Economics.

Mr. Chapman holds a Bachelor of Science degree in Economics from Texas A&M University as well as a Master of Business Administration degree with a specialization in Finance from the University of St. Thomas. He resides in Houston, Texas with his wife where they raised their four children.

With more than 65 years' experience, TransCanada is a leader in the [responsible development](#) and reliable operation of North American energy infrastructure including natural gas and liquids pipelines, power generation and gas storage facilities. TransCanada operates one of the largest natural gas transmission networks that extends more than 91,900 kilometres (57,100 miles), tapping into virtually all major gas supply basins in North America. TransCanada is a leading provider of gas storage and related services with 653 billion cubic feet of storage capacity. A large independent power producer, TransCanada currently owns or has interests in approximately 6,100 megawatts of power generation in Canada and the United States. TransCanada is also the developer and operator of one of North America's leading liquids pipeline systems that extends approximately 4,900 kilometres (3,000 miles), connecting growing continental oil supplies to key markets and refineries. TransCanada's common shares trade on the Toronto and New York stock exchanges under the symbol TRP. Visit TransCanada.com to learn more, or [connect with us on social media](#) and [3BL Media](#).
